IX. Gastronomy

Los Cabos' dining scene has it all – from fusion dishes and Old World delicacies to fresh seafood and Mexican specialties.

Whether it's an elegant five-course feast with waves lapping at your feet or a quick bite with a frosty craft beer in hand, dining options in Los Cabos are among the most exciting and varied in all of Mexico. Everyday offers a fiesta of flavors with freshly caught seafood, elaborate Mexican dishes and international options that celebrate the traditions of Italy, Peru, China and many other countries.

The dining experience in Los Cabos is delectable, diverse and downright unforgeable. Foodies the world over know that this is the place for delicious offerings, whether it be fresh from the farm, catch-and-cook or anything in between.

X. Sustainability

COMMUNITIES:

Cabo San Lucas has organic markets where you can find a wide selection of locally-grown produce, as well as crafts, jewelry, soaps and tasty treats. A stroll around the Saturday organic market in San Jose is a great way to learn more about local farmers, sample products found only in Baja Sur, and connect with a variety of eco-friendly locals and foreigners.

ENVIRONMENT:

Los Cabos offers conservation trips that allow ecologically-minded visitors a chance to get up close and personal with Baja's vibrant wildlife. Whether it be diving with giant squids, whale watching, or protecting sea turtles, each of these conservation expeditions are oriented around education and preservation of this delicate ecosystem and are customizable for each group.

42% of the territory
of Baja California
Sur are Natural
Protected Areas

Each year, turtles make their nest on the same beaches enjoyed by thousands alike. A number of hotels in Los Cabos have special preservation programs (some specially funded by the Mexican government) to protect the fragile turtle eggs and make sure that once hatched, these babies make it safely to sea. Guests of these hotels are often welcomed to help lead the newly-hatched turtles to shore and fend off would-be predators. Another way that tourism can help work with nature, and not against it.

BLUE FLAG

Los Cabos has a total of nineteen Blue Flag beaches, the Blue Flag is a special certification given to beaches, marinas, and sustainable boating tourism operators by the Foundation for Environmental Education. The certification signals that a beach or marina has met a strict set of standards, such as being clean and accessible; offers great water quality; meets high safety standards; puts commendable effort to protect ecosystems and local shorelines.

CORPORATE SOCIAL RESPONSIBILITY

Corporate Social Responsibility: Groups are encouraged to participate in social responsibility and community contribution opportunities. Community contribution initiatives are coordinated with several existing local entities assisting in a variety of areas of special needs of children, seniors, animals among others.

These organizations depend on the generosity of others to make a meaningful, positive difference in the lives of those less fortunate.

There are different ways to participate and get involved. These opportunities generally fall into the following categories:

1. Hands-on volunteer or recreational activity on-site with the kids and teens.
2. Donation (financial or in-kind) during a group event.
3. Collection of in-need donation items.
4. Fundraiser to contribute to the purchase of a larger need.

If you are interested in coordinating a Social Responsibility activity, we can guide you through the projects that best suits the profile of your program.

Los Cabos Children's Foundation (LCCF) can also issue tax-deductible receipts as a 501 (c) (3) charity based in the United States (EIN: 20-2882711). LCCF was established in 2002 to close the gap between children with illness and the medical care that was not available locally. Supports local service providers that address these needs (hospitals, clinics, etc.) with funds for programs. Their goal is to build a solid network to meet the needs of children at medical risk and economically disadvantaged throughout Baja California Sur. In 2019, more than 7,580 children will benefit from 34 programs supported by LCCF. Contact

XV. Memberships

The Los Cabos Tourism Board is proud to be associated with the following local and International organizations:

XVI. Safety & Security

Los Cabos today is a safe and secure destination. Security is and always has been our utmost priority.

As a destination that welcomes more than 2.5 million international travelers from all over the world each year, we understand that a secure travel environment is critical to the continued success of Los Cabos as a thriving destination.

In the past year alone, the public and private sector have invested close to \$50 million to upgrade security infrastructure, equipment, and personnel.

Los Cabos implemented a 5-point security action plan that is working. Since launch, notable progress includes:

Created a “Rapid Response Network”: Developed a real-time and ongoing communications “Rapid Response” network with local hoteliers and businesses to encourage information sharing of any suspicious activity or reported incidents and to alert appropriate authorities and law enforcement.

Accelerated the Security Surveillance System Expansion: Phase I is currently in progress, onboard hotel cameras to the destination’s surveillance network. Today, security officials have an improved panoramic overview of the destination. Phase II will involve the installation of 200 new cameras along the corridor and in tourist hotspots.

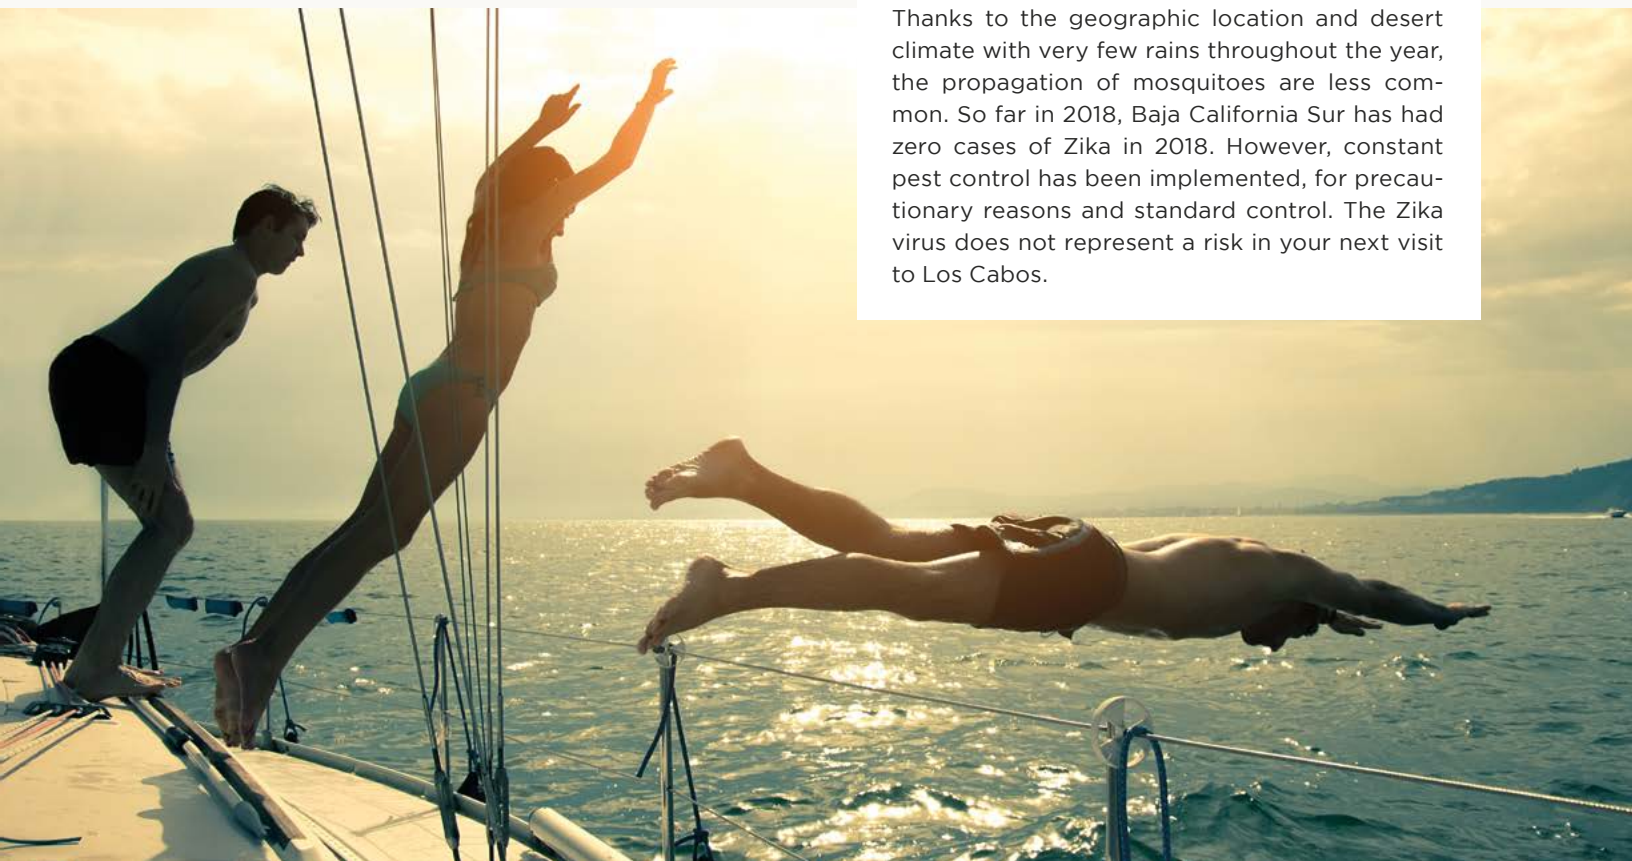

Building a New Marine Base: On schedule to open in Q2 2018, the new C3 intelligence center will feature state-of-the-art technology, empowering the Mexican marines to operate the surveillance system and manage emergency hurricane response – the first of its kind in Mexico.

Organized a Hotel Security Committee: Working with the Hotel Association, the Committee meets bi-weekly to address concerns, share best practices and ensure security protocols at all area hotels.

Set New Training and Security Protocols: Working closely with the U.S. State Department, Los Cabos implemented new security training programs and protocols in area hotels and businesses aligned with OSAC (Overseas Security Advisory Council) standards.

ZIKA

Thanks to the geographic location and desert climate with very few rains throughout the year, the propagation of mosquitoes are less common. So far in 2018, Baja California Sur has had zero cases of Zika in 2018. However, constant pest control has been implemented, for precautionary reasons and standard control. The Zika virus does not represent a risk in your next visit to Los Cabos.
